_____ I will be living on campus this summer.  The housing application required. (Link:  
Housing Application).

_____ I will NOT be living on campus this summer.

Your signature below indicates that you have read and understand the following information regarding participation in the Summer Science Institute 2014.

SSI has a website (SSI) where student forms, activities and other information can be found.

Participating students are expected to give full-time effort to a research project for the ten weeks corresponding to the College’s Summer Session.  The specific schedule of time and tasks will be determined with the Faculty Mentor.

Each participating student will have an individual project that can be presented on its own.  The work can be a part of a larger overall project but must have an individual component.

On Wednesday, July 23, 2014 SSI student will present their summer work at the Summer Science Symposium.  Participation in this event is mandatory.

Throughout the summer there will be organized SSI group events.  Participation in these events is strongly encouraged.  The more you participate the more you will get from the SSI experience!

Participating students will receive:

- $2800 stipend and room and board if desired.
- $1500 supplies/equipment budget for the project

- SSI will pay for a double occupancy room unless there is a documented reason why a single is necessary.  A student can pay the extra cost for a single if they wish.
- If you choose not to live on campus, you are still entitled to meals at Seacobeck.  The program will pay each week for all meals taken by the program participants.
- Supplies/equipment are to be purchased by your faculty mentor through UMW sources.
